Common Look & Fell Throughout Program				
Modular Design:				
- Manager Module: enroll people, controllers, schedules, lock/unlock Doors, system settings				
- Monitor Module: notification of events, alarms, general status with pop-up messages				
- Server Module: manage communication with door controllers				
Define up to 100 Unique Weekly Schedules				
24/7 Scheduling				
Define Holidays & Other Special Dates with Unique Scheduling				
Create Door Groups for Easy Management				
Assign Door & Door Group Privileges to Each Individual				
Easily Activate and Deactivate Access Privileges				
Automated Door Lock/Unlock with Security Features				
Remote Door Lock/Unlock Feature				
Import People Data from Text File				
SECURITY				
Password protected operator accounts				
Define privileges for each operator				
Comprehensive audit activity for each operator				
Comprehensive audit activity for doors ( <i>invalid entry attempts, alarms, system status</i> )				
REPORTS				
Ability to View Historical Data				
Easy Report Definition				
Filter Data by Date or Other Field ( <i>person, controller, event type, &amp; etc.</i> )				
Automatic Report Formatting				
Print Preview Report				
Generate Report PDF File				
Generate Lists of Enrolled People, Controllers, Groups, Schedules, & etc.				
Sort by Specific Field				
HARDWARE				
Control up to 128 Doors				
PC Network Like Installation ( <i>Ethernet or Serial</i> )				
Fault Tolerant System Architecture				
- Fully Independent Controllers for Each Door				
- Hardware Communication Fail Safe Stand Alone Design.				
- Hardware can Operate Independently from Software Storing People, Schedules & Events				
- Available UPS Power Backup Options				
Simplified Wiring & Power Needs at Each Door				
Reader Technologies: Barcode, Magnetic Stripe, Proximity, Biometric, Keypad Options				
Built-in Audible Buzzer				
COMPARISON CHART				
Feature	Business	Corporate	Enterprise	
People	Up to 50	Up to 150	More than 150	
Works Across Network			*	
Place Modules on Different PC			*
